## Experience

Jul 2024 - Jul 2024

●

iFuture Technologies Pvt. Ltd., Thane

Cloud Intern

- Successfully completed a 30-hour Cloud Internship program focused on cloud computing concepts and infrastructure fundamentals
- Acquired hands-on exposure to Microsoft Server Management and Private Cloud environments
- Developed an understanding of virtualization technologies and enterprise cloud architecture
- Gained knowledge of deployment workflows and real-world cloud infrastructure practices
- Enhanced understanding of cloud technologies and their practical implementation in industry applications

## Education

2020 - 2021

●

G.S.S. English High School, Thane

X • High School

Percentage - 92.4%

2022 - 2023

●

VPM's B.N. Bandodkar College of Science, Thane

XII • Intermediate

Percentage - 81%

2023 - 2027

●

Lokmanya Tilak College of Engineering, Navi Mumbai

3rd Year Undergraduate • B.E Computer Science And Engineering (AI&ML)

Still now maintain 9+ CGPA

## Certification

### Cloud Internship Certification

[Certificate Link](#)

- Successfully completed a 30-hour Cloud Internship program focused on cloud computing and infrastructure concepts
- Gained practical exposure to Microsoft Server Management, Private Cloud environments, and cloud technologies

### Green Skills & Artificial Intelligence Foundation Course

[Certificate Link](#)

- Successfully completed a foundation program focused on Artificial Intelligence and sustainable technology concepts
- Developed knowledge of AI fundamentals and their application in solving real-world challenges

### Alpha DSA with Java

[Certificate Link](#)

- Successfully completed the Alpha DSA with Java course from Apna College
- Strengthened understanding of Data Structures, Algorithms, and analytical problem-solving techniques

### Full Stack Web Development

[Certificate Link](#)

- Successfully completed the Full Stack Web Development program from Apna College
- Acquired practical experience in developing web applications using HTML, CSS, JavaScript, React.js, Node.js, Express.js, and REST APIs

## Skills

- C++
  - C Programming
  - Java
  - HTML
  - CSS
- JavaScript
  - Git
  - Github
  - Bootstrap (Framework)
  - Node.js
- Express.js
  - MySQL
  - MongoDB
  - React.js
  - MERN Stack
- Poster Making
  - Data Structure and Algorithm
  - AIML
  - Data Analysis and Data Visualization
  - Python

## Projects

### Library Management System

🔗 [Project Link](#)

- Designed and developed a digital platform to streamline library operations and book management processes
- Implemented functionalities for user management, book issuance, and return tracking
- Integrated database connectivity with responsive user interfaces for efficient system interaction
- Technologies: HTML, CSS, JavaScript, Node.js, Express.js

### School Bus Management System

🔗 [Project Link](#)

- Developed a school transportation management solution to improve route and travel administration
- Implemented route scheduling and secure role-based authentication mechanisms
- Enhanced operational efficiency by digitizing transportation workflows and management tasks
- Technologies: Node.js, Express.js, MongoDB, JWT

### AlertExa – Smart AI Proctoring & Quiz Management System

🔗 [Project Link](#)

- Built an AI-driven examination monitoring platform to enhance online assessment integrity
- Integrated features including face detection, voice monitoring, tab activity tracking, and automated violation handling
- Designed and implemented dedicated dashboards for students and administrators to manage examination activities
- Technologies: HTML, CSS, JavaScript, Face-api.js, Web Audio API

### MediAI – AI HealthcareBot

🔗 [Project Link](#)

- Developed an AI-based healthcare assistance platform for symptom evaluation and preliminary health guidance
- Implemented features such as disease prediction, intelligent chatbot support, doctor recommendations, and medical record management
- Added secure authentication, multilingual accessibility, and responsive dashboard functionality to improve user experience
- Technologies: Next.js, React.js, Tailwind CSS, FastAPI, MongoDB, Python, Scikit-learn, JWT

## Achievements

### Technical Poster Presentation Competition – 3rd Rank

- Secured 3rd Rank in the Technical Poster Presentation Competition
- Presented an Artificial Intelligence-based Bus Management System demonstrating practical problem-solving capabilities

### UAI Hackathon 2026 – 3rd Rank Winner

- Achieved 3rd Rank at UAI Hackathon 2026 organized by Universal AI University
- Developed an Off-Road Semantic Scene Segmentation System, achieving 79.4% Pixel Accuracy and 0.521 IoU Score

### Nirman Hackathon 2026 – Top 10 Finalist

- Earned a Top 10 Finalist position at Nirman Hackathon 2026
- Contributed to the development of RuralTriage AI, an AI-driven solution addressing rural healthcare challenges

## Responsibility

- Contributed to frontend, backend, and AI-based module development across projects and technical events
- Participated in project lifecycle activities including planning, implementation, testing, and debugging
- Worked collaboratively with team members to deliver project objectives within defined timelines
- Assisted in identifying solutions and implementing features for real-world problem statements
- Coordinated with team members to enhance project functionality and overall system performance
- Demonstrated effective teamwork and collaboration during hackathons and technical competitions
